

Registering your copy of DataSlave

If you have not already done so to purchase a copy of DataSlave go to the Baycastle web site and select the DataSlave Pricing page. Press the Add to Basket button against the product you wish to purchase. You can use a PayPal account or a credit card. You will be sent your licence file within 2 working days.

Copy the licence file into the program directory where DataSlave is installed. This is normally:

C:\Program Files\Baycastle Software Ltd\DataSlave

Run DataSlave. A licence activation dialog box is displayed. This activation will licence your copy of DataSlave to your PC.

You can select to:

- If your PC is connected to the Internet quickly activate on-line. DataSlave will contact our licence server to authenticate the licence. This will only be done once and no personal information is passed
- Activate by email or fax
- Activate at a later date. There is a 10-day grace period after which you must activate

Registering your copy of DataSlave

If you choose to activate by email select that radio button and continue:

- Send the Serial Number and Machine Key to support@baycastle.co.uk. To create an email press the Copy To Email button.
- Press the Back key and continue without activation.
- DataSlave will run.
- You will receive your unlock code within 2 working days.
- Once you have received this display the above dialog box by selecting Activate by email again and enter the code into the fields.
- Press Continue to complete the licence activation.

DataSlave Loader

If you have purchased the DataSlave Loader you will be sent a second licence file. This should be placed in the DataSlave folder as for DataSlave (the Map Editor). This licence does not require activation.
